

## PROBLEM RESOLUTION

Many manufacturers take full advantage of the "problem solving skills" of the staff of D&D Distribution Services.

In-plant or off-site operations programs are developed and managed by our staff.

Dedication to the success of our customers makes D&D the leader in the third party logistics industry in central Pennsylvania.

## WMS (WAREHOUSE MANAGEMENT SYSTEM)

- Accurate, real-time inventory control
- Customized inventory reporting
- Product and item tracking
- FIFO processes in place

## EXPERT SERVICE

- Three decades of flexibility and efficiency
- Devoted and long term staff of logistics professionals
- Intense personal training of our Customer Service personnel
- One-on-one communication with customers and management

## MISSION STATEMENT

"Recognizing that our people are the competitive advantage, we deliver the resources and services to prepare our people to be winners, to support the growth and profitability of the company, while preserving the values and special culture of our customers"
